# INTRODUCTION

Welcome to our Trail Running Gear Catalogue!

Trail running is among the fastest growing outdoor sports in the world. Modern trail events, the rise of the FKT (Fastest Known Time) concept and athletes themselves continue to push the envelope in all aspects of the sport including speed, distance and terrain, often blurring the lines with other mountain sports as a result. Running parallel to this explosion of interest, major advances in equipment, apparel and footwear have been brought to market. The quest for lighter, more compact, better performing equipment and apparel has meant that trail runners are now spoiled for choice when it comes to selecting the gear they require to push their physical and mental boundaries and stay safe while doing so...

Ram Mountaineering is proud to bring to market some of the most lightweight, innovative, high performing equipment and apparel money can buy. From Black Diamond to Scarpa; from lightweight running apparel, purpose-built award-winning trail running headlamps, trekking poles and packs to award-winning mountain running footwear we have got you covered!

Men's & Women's

## Ribelle Run LT

**Scarpa**

Ribelle Run LT keeps the stability and protection features of the Ribelle Run 2, elevating them for long distances. It's a shoe designed for beginners to intermediate runners seeking maximum reliability for long run on various off-road terrains, from the easiest to the most rugged.

- Midsole wrapped by the upper for enhanced stability.
- Reinforced upper with 3D Bio-Based Print.
- Sole Presa® TRN-09 Grip for increased durability.
- Available in Men's and Women's

**NEW**

Men's & Women's

## Ribelle Run 2

**Scarpa**

The most winning shoe in the collection undergoes a refresh. Ribelle Run 2 is the top pick for who seeks unrivaled precision, stability, and control on the most rugged and rocky terrains. Its iconic rand 3S FRAME completely wraps around the shoe structure, ensuring unparalleled support and protection, particularly in unbalanced situations. The perfect choice for Skyrunning and short to medium-distance trails.

- 3S FRAME that wraps and protects the foot from rough terrain.
- 6mm lug outsole for better traction.
- Soft, Sock-like build for easy slipping on.
- More breathable and durable mesh.
- Available in Men's and Women's

**NEW**

Men's & Women's

## Golden Gate 2 ATR

**Scarpa**

All terrain crusher. Golden Gate 2 ATR is an extremely versatile road-to-trail multi-terrain shoe designed and built for medium and long distances. Compared to the previous version, the mesh is more resistant and breathable, the Bounce Foam midsole provides a more elastic response. The geometry of the I-Respond outsole allows a smoother and more efficient stride. These key features make it well-suited for athletes of any weight and experience level, who are looking for a reliable and comfortable shoe for their daily training.

- All-Terrain shoe
- Ultra-cushioned Bounce Foam
- Comfort and reliability for daily training
- Available in Men's and Women's

**NEW**

Men's &amp; Women's

## Spin Ultra 2

**Scarpa**

Spin Ultra 2 takes inspiration from ultra running champions. Designed to tackle long distances on any terrain, it ensures an excellent balance between cushioning and responsiveness during the most challenging races. This shoe enables athletes to achieve peak performance with an impeccable blend of lightweight, precision, and durability.

- Supercritical Foam for a cushioned and responsive midsole.
- Velox Max 2 sole with Vibram® Megagrip compound.
- Available in Men's and Women's

**NEW**

Men's &amp; Women's

## Spin Planet

**Scarpa**

Long distance, low impact. The next step in our sustainability journey, the Spin Planet introduces a new concept into the Trail Running category with the upper fabric 100% made from recycled materials while the EVA midsole is 45% recycled and the rubber outsole is 30% recycled. The ideal shoes for those who are pursuing long distances on the trail thanks to the midsole volume designed to absorb impact and provide protective cushioning.

- From beginner to pro
- Protective cushioning
- Instant comfort
- Available in Men's and Women's

**UPDATED****PFC-Free****Distance 4 Hydration Vest****Black Diamond****Men's & Women's**

Engineered for long distance races and fast-paced adventures, the Gen 2 Distance 4 Hydration Vest has a running harness suspension made from stretchy, comfortable material that extends from the sides to the back panel with self-bound stretch mesh edges for ultimate comfort on the move. An over the shoulder Z-Pole carry system can be easily deployed on the go, while high stretch side panels extend from the harness itself for an improved fit while on the move. This harness design also provides quick-access side pockets. Lighter colorways provide temperature regulation and better visibility. Dual flask pockets fit two BD HydraPak® SoftFlasks™ - which are included with the vest - while a zippered chest pocket, lumbar and back zip security pockets and small stash pockets provide ample storage for essential supplies.

- Innovative harness layout with soft, flexible edge binding provides comfort on the move
- On-the-go Z-Pole storage
- High stretch side panels add comfort and keep vest bounce to a minimum
- Front zip pocket with removable micro race whistle
- Back lumbar pocket and zip security pocket with key clip
- Women's version features women's specific design for streamlined fit in shoulders and chest
- Sizes: S, M, L

## Distance 8 Pack

## Black Diamond

Men's &amp; Women's

Made for long days on the move, the Gen 2 Distance 8 Pack is built with UHMWPE ripstop body fabrics and an entirely unique harness system that moves with you. Stretch-woven "wings" extend from the back panel along the sides to provide a secure and chafe-free fit. Easy to use Z-Pole storage can be deployed on the move, while dual side compression allows you to modify carry capacity as you go. The pack is made with BD SETT (Stitchless Edge Taping Technology) that improves fit, comfort and durability on the move. The Distance 8 has an internal zip pocket, side stretch stash pockets, and a single zip pocket on the shoulder strap.

- Innovative harness layout with Stitch-less Edge Taping Technology for superior shoulder strap comfort, movement, and weight reduction
- On-the-go Z-Pole storage and secure Z-pole sleeves built into the pack
- Dual side compression
- Custom developed UHMWPE ripstop body fabrics
- Two soft flask pockets (soft flasks not included), one zip and two stretch shoulder strap pockets
- Two side stash pockets and one internal zip pocket with key clip
- Women's version features Women's specific design for streamlined fit in shoulders and chest
- Sizes: S, M, L

**UPDATED****PFC-Free****Distance 15 Pack****Black Diamond****Men's & Women's**

Designed for long days in the alpine that toe the line between running and scrambling, the Gen 2 Distance 15 is a hybrid pack that breaks down barriers. With a hybrid design that includes vest-inspired suspension for running, the Distance 15 combines lightweight technology with extra storage for mountain endeavors. The pack is made with BD SETT (Stitchless Edge Taping Technology) that improves fit, comfort and durability on the move. The Distance 15 is fully equipped with Z-Pole storage that's easy to deploy on the go, plus dual piolet carry options.

- Innovative harness layout with Stitch-less Edge Taping Technology for superior shoulder strap comfort, movement, and weight reduction
- On-the-go Z-Pole storage and secure Z-pole sleeves built into the pack
- Dual side compression
- Custom developed UHMWPE ripstop body fabrics
- Dual piolet storage
- Two soft flask pockets (soft flasks not included), one zip and two stretch shoulder strap pockets
- Two side stash pockets and one internal zip pocket with key clip
- Women's version features Women's specific design for streamlined fit in shoulders and chest
- Sizes: S, M, L

## UPDATED

**Distance Carbon Z Poles****Black Diamond**

The Distance Carbon Z is our lightest Z-Pole engineered for those who travel fast. With 100% carbon construction, the Distance Carbon Z features a three-section foldable design that allows for fast-response deployment. We've slimmed down the diameter of the poles, shaving weight and bulk without sacrificing durability. Our ultralight recycled nylon Distance strap is breathable and moisture wicking, the ultralight EVA grip has just the right amount of comfort and easily interchangeable Tech Tips round out this piece as the ultimate in lightweight detail-driven pillar of pole technology.

- 100% carbon fiber shafts
- Z-pole fixed length construction with speed-cone deployment
- Ultralight recycled nylon wrist straps
- Lightweight EVA foam grip and grip extension with breathable, moisture wicking strap made from recycled materials
- Optimized joint support and stiffness for increased durability
- Interchangeable tech tip compatible with both carbide and rubber tech tips included
- Removable low-profile baskets for versatility
- Z-Pole Snow Basket compatible
- Unisex available in 105, 110, 115, 120, 125, and 130cm lengths

## UPDATED

**Distance FLZ Poles****Black Diamond**

Combining the amazing packability of a Z-Pole with Flicklock® adjustability, the Distance FLZ is an excellent choice for trail runs, steep scrambles and long hikes. The Distance FLZ utilizes our lightweight and supportive Distance strap that's breathable and moisture wicking, making the Distance FLZ a durable, lightweight trekking machine ready for adventure.

- Improved joint support and stiffness
- Lightweight EVA foam grip and grip extension with breathable, moisture wicking strap made from recycled materials
- Three-section foldable shaft with speed cone deployment and FlickLock® adjustability
- Aluminum construction
- Interchangeable, non-scarring rubber Tech Tips and carbide Tech Tips
- Removable low-profile baskets for versatility
- Z-Pole Snow Basket compatible
- Available in 95-110cm, 110-125cm and 125-140cm lengths

# LIGHTING

 Rechargeable

## DUAL-FUEL

 Rechargeable

## Dual-Fuel vs Rechargeable

Black Diamond's **Rechargeable** headlamps are powered by **built-in Lithium-ion batteries for the ultimate in reusable lighting**. These headlamps are easily charged from multiple sources including car, portable power source, solar panel, or wall charger. This range includes the R-Series - fully-featured rechargeable-only versions of BD's wide range of Dual-Fuel headlamps.

Black Diamond's **Dual Fuel** range offers a **flexible power solution**. All Dual-Fuel headlamps can utilize either traditional Alkaline cells, or Black Diamond's rechargeable Li-ion battery packs (sold separately). With Dual Fuel you can recharge your headlamp at home (using a rechargeable battery pack) and bring a few backup Alkaline cells to switch to just in case your battery runs dry.

### DUAL-FUEL

 Rechargeable

 Rechargeable

## Astro 300

The simple yet versatile one lens and one switch headlamp for the user that doesn't need any bells or whistles and just wants a simple light. This user has the need to run the lamp on alkaline batteries if caught away from a power source for a long camping trip.

- Dual-Fuel: Power with three AAA Alkaline cells (included) or the rechargeable BD 1500 Li-ion battery and charger (purchased separately) for maximum flexibility
- 300 Lumen max output
- Settings include full strength, dimming and strobe
- Brightness Memory allows you to turn the headlamp on and off at last used brightness level without reverting to max brightness
- IPX4 Stormproof: withstands rain and sleet from any angle
- Digital lock mode feature safeguards against accidental use when stored in a pack or pocket

Also available as the **Astro 300-R**: Powered with a rechargeable integrated 1500 mAh Li-ion battery with micro-USB charge port and featuring a recycled Repeve headband.

## Black Diamond

**NEW**

 Rechargeable

## Deploy 325

The Deploy 325 is the ideal headlamp to stash in a pocket for late-in-the-day runs or pre-work training missions. Its 325-lumen output and variable angle lens design provide plenty of light and adjusts with the push of a button, whether you're running up a steep trail or down a city street. With a quickcharging battery that uses a USB-C cable, the Deploy 325 is ready to go at a moment's notice. Its sleek shape fits below the brim of a hat, while light foam padding and a flexible wing band provide stable, bounce-free comfort.

- Emits 325 lumens of light
- Adjustable variable angle lens
- Fits under hat brim
- Stable and comfortable fit
- Charges with USB-C cable
- Water resistant (IPX4)
- 360-degree visibility with reflective headband

 Rechargeable

## Cosmo 350-R

## Black Diamond

For multi-use camping, around the house, and outdoor adventures that require a simple light with both an all-purpose beam as well as night vision. This user has access to a power source and values the ability to go out on their adventures with a fully charged battery.

- Rechargeable: Powered with integrated 1500 mAh Li-ion battery with micro-USB charge port
- 350 Lumen max output
- Recycled elastic headband featuring comfortable next to skin Repreve fiber construction
- Settings include dimming, strobe, red LED night-vision and lock mode
- Multifaceted optical efficiency lens technology
- IP67: Waterproof-Tested to operate at least 1.0 meters underwater for 30 minutes.
- Integrated battery meter display shows % of power remaining
- Digital lock mode feature safeguards against accidental use when stored in a pack or pocket.
- Red night vision has dimming and strobe modes and activates without cycling through the white mode

Also Available as the **Cosmo 350**: Powered with Dual-Fuel and featuring a non-recycled comfort headband.

## Spot 400

## Black Diamond

For a technical user who expects all-around performance and features out of their headlamp but still values a small size and compact package. This user has the need to run the lamp on alkaline batteries if caught away from a power source for a long expedition.

- Dual-Fuel: Maximum flexibility to utilize either the rechargeable Lithium Ion BD 1500 battery or Alkaline cells (included)
- 400 Lumen max output
- PowerTap™ Technology allows instant adjustment between max output and dimmed power
- Integrated battery meter display
- Settings include proximity and distance modes, dimming, strobe, red
- LED night-vision and lock mode
- Brightness Memory allows you to turn the light on and off at a chosen brightness without reverting back to default setting
- Red night vision has dimming and strobe modes and activates without cycling through the white mode
- Multifaceted optical efficiency lens technology
- IPX8: Waterproof-Tested to operate at least 1.1 meters underwater for 30 minutes. Should be completely dried out after use in wet conditions
- Digital lock mode feature safeguards against accidental use when stored in a pack or pocket

Also Available as the **SPOT 400-R**: Powered with a rechargeable integrated 1500 mAh Li-ion battery with micro-USB charge port and featuring a recycled Repreve headband.

## Sprinter 500

The Sprinter 500 headlamp is our premium, purpose-built solution for runners who start early in the morning or for those who keep running long after the sun has set. Ultra-thin and well balanced, the Sprinter 500 now features nearly twice the lumen output of previous versions, emitting 500 lumens on the light's brightest setting. The Sprinter is Dual-Fuel compatible, providing maximum power flexibility for runners on the move. The single front lens has an extremely smooth universal beam that minimizes hot spots and eliminates harsh transitions on the trail.

- Rechargeable 500 lumen headlamp
- Dual-Fuel: Maximum flexibility to utilize either the included rechargeable lithium ion BD 1800 battery or standard AAA alkaline batteries
- Micro-USB port included on rear battery compartment for easy recharging
- Red taillight strobe with on/off programmability for increased visibility
- Six-setting 3 LED battery meter
- PowerTap™ Technology for instant transitioning between full and dimmed power
- Variable dimming and strobe mode
- Digital lockout feature safeguards against accidental use when stored in a pack or pocket
- Perforated elastic headband with removable top strap
- IPX4: Storm proof—Tested to withstand rain and sleet from any angle

## Distance LT 1100

Lightweight and compact, the Distance LT 1100 is built to shine on pre-dawn-to-dark endurance days, where every ounce counts. A removable and rechargeable battery pack is low-profile and stays flush with your forehead, while the light pivots to adjust the beam. Plus, the band itself is easily swap-able. The Distance's integrated PowerTap™ Technology boosts the light to the max setting of 1100 lumens for long-range viewing. Engineered lighting is reliable and maintains depth perception through the range of brightness levels.

- Low profile, suspended headband provides superior comfort during use
- Pivoting light engine keeps the mass of the battery close to body to minimize bounce and movement while running
- PowerTap™ Technology boosts beam to max setting 1100 lumens (dims automatically after 10 seconds to save battery life)
- Rechargeable 2200 mAh Li-ion battery charges via USB-C port
- and can be swapped on-the-go
- 3-color, RGB LED for additional performance mode
- Multifaceted optical lens design provides a combination of depth lighting to better spot obstacles and smooth, diffuse light for consistent visibility
- Submersible IP67 waterproof rating
- Removable and washable elastic headband
- Helmet compatible

## Distance 1500

## Black Diamond

Designed for fast-paced, overnight endurance pushes and moving through technical terrain at night, the Distance 1500 represents the pinnacle of headlamp technology. The Distance's integrated PowerTap™ Technology boosts the light to the max setting of 1500 lumens for long-range terrain assessments or spotting trail markers. Constant-output programming provides continuous lighting, and the light's engineered, multi-faceted lens provides smooth, reliable light that maintains depth perception without creating shadows or artifacts. The interchangeable, magnetic battery pack has enough capacity to last the entire night at a moderate setting and easily swaps one-handed without stopping when more power is needed. The Distance's Comfort Cradle™ sits low and contours the head to eliminate bounce and features integrated cushioning for all-night comfort.

- PowerTap™ Technology boosts beam to max setting 1500 lumens and 117 meters (dims automatically after 10 seconds to save battery unless customized by user)
- Constant output programming provides continuous light before dropping to reserve power mode
- One full battery lasts 8 hours at 300 lumens; two full batteries last 8 hours at 600 lumens
- Comfort Cradle™ provides contoured, bounce-free fit and dispersed padding and can be used with removeable top strap for additional security in technical terrain
- Multifaceted optical lens design provides a combination of depth lighting to better spot obstacles and smooth, diffuse light for consistent visibility
- Rechargeable, interchangeable magnetic battery pack can be quickly switched with one hand and features an integrated red rear flasher
- Helmet compatible
- User-accessed PowerTap Technology in temperature control mode allows for continuous 1500 lumen output if environmental conditions allow for safe/functional operation

## BD 1500 Battery & Charger

## Black Diamond

The new BD 1500 Rechargeable Battery is compatible with all BD Dual Fuel headlamps and lanterns. The BD 1500 battery comes with a USB charger and is a 1500 mAh Li-ion rechargeable cell, giving you the freedom of reliable light you can use again and again while running, climbing and trekking in the mountains.

### Alpenglowl Hoody

### Black Diamond

For long, exposed movements and summit naps, the Black Diamond Alpenglowl Hoody keeps you covered when sunscreen just won't cut it. With UPF-50+ and BD.cool mineral based in-fiber cooling technology, which reflects 71% of near-infrared rays and reduces wearer's perceived temperature. A layer of protection to your arsenal, with an under-the-helmet hood and pullover design, plus Polygiene odor control, the Alpenglowl hoody offers the ultimate in performance and long-wearing comfort.

- UPF 50+ sun protection
- BD.cool in-fabric cooling technology
- Underarm gussets for added range of motion
- Under-the-helmet hood
- Polygiene Odor Control Treatment
- 245g

**UPDATED**

### Alpenglowl Pro Hoody

### Black Diamond

The Black Diamond Alpenglowl Pro Hoody offers ultimate sun coverage as well as water resistance for mountain missions with unpredictable weather. Featuring UPF 50+ fabric, we've also added GTT's revolutionary Empel™ Technology, an environmentally friendly PFC-free water-repellant finish that is superior in performance compared to any other C-6, C-8, or C-0 DWR. The Alpenglowl Pro also sports a zip opening for regulating body temperature, HeiQ Pure underarm mesh panels for extra breathability, a concealed chest pocket, thumb-loops, and an over-the-helmet compatible hood, making this hoody an essential layer from the desert to the alpine.

- Featuring GTT Empel™ Technology—a revolutionary water free and PFC-free
- DWR that's superior in performance and substantially more durable than other
- DWR solutions
- Zippered chest pocket for storing valuables
- Elasticized over-helmet compatible hood
- Harness compatible length and fit
- Thumbloops
- HeiQ Pure Odor Control Treatment at underarm mesh

## Fineline Stretch Shell

## Black Diamond

Alpine squalls or urban downpours, the Fineline Stretch Rain Shell can handle it all. Featuring our BD.dry™ waterproof/breathable/windproof solution, which is engineered to shield you from whatever the weather holds, the Fineline is a fully featured rain shell. With DWR sealed pit zip vents, two zippered hand pockets and a waterproof center front zipper, the Fineline comes prepared for the wettest conditions but quickly adapts for moderate weather. The Fineline's underarm gussets and ultra-stretchy fabric add mobility and durability, while the climbing helmet-compatible hood makes it perfect for on-trail escapades when inclement weather rolls in. The Fineline also has an adjustable hem and cuffs for dialing in the fit, and when the sun comes out, the shell stows into the right-hand pocket.

- Built with BD.dry™ 2.5L—our engineered waterproof/breathable/windproof technology
- 10,000mm waterproof rating
- 10,000 g/m<sup>2</sup>/24hr breathability rating
- Stretch fabric increases comfort
- DWR armpit zips for ventilation
- Underarm gussets for added mobility
- Adjustable, climbing-helmet-compatible hood
- YKK Aquaguard center front zipper
- Packs into right-hand pocket with carabiner clip loop
- Adjustable cuffs and hem

**NEW**

## Fineline Stretch Full Zip Pants

## Black Diamond

The Fineline Stretch Full Zip Pants provide the security you need to push your limits no matter what the weather holds. Updated to be PFAS free for fall 2024 and featuring our BD.dry™ waterproof/breathable technology, these pants are durable, comfortable, stretchy, and reliable when the storms roll in.

- Built with BD.dry™ 2.5L—our engineered waterproof/breathable/windproof technology
- 10,000mm waterproof rating
- 10,000 g/m<sup>2</sup>/24hr breathability rating
- Stretch fabric increases comfort
- Gusset seat and articulated knees increase mobility
- 1/3-length DWR zippers on both legs with separating side zips
- DWR treated zippers
- Snap bottom closure with internal cord adjust at hem to customize fit
- Stows into back-right zippered pocket with carabiner clip loop

## UPDATED

**Alpine Start Hoody**

An ultralight softshell designed to shield weightconscious climbers from ridgeline gusts and light weather, the Black Diamond Alpine Start Hoody features Schoeller stretch-woven fabric to provide highly breathable and highly packable weather resistance. An updated silhouette provides an increased range of motion and unrestricted movement, so that you can keep climbing even in windy and cold conditions. Elastic banding on hood, cuffs, and hem seals in warmth and secures fit, while a drop hem is harness-compatible.

- Primary Fabric is bluesign® approved
- Built with BD.dry™ 2.5L—our engineered waterproof/breathable/windproof technology
- 10,000mm waterproof rating
- 10,000 g/m2/24hr breathability rating
- Schoeller Eco-Repel Bio® PFC-free DWR Technology
- Adjustable, climbing-helmet-compatible hood
- Stows in chest pocket with carabiner clip loop
- Drop hem for more coverage under harness
- Elasticized hood, cuffs, and hem

## Distance Shorts

## Black Diamond

The brainchild of BD mountain athletes, the Distance Run Short brings ultimate utility to a running short built for speed. Featuring a stretchy nylon/elastane fabric with a DWR finish, the Distance Run Short holds up to weather and abuse when out in the hills while carrying everything you need for a long day in the mountains. With two side drop-in pockets and a zippered rear pocket to hold a phone securely, the Distance carries all the essentials. Reflective Black Diamond logos in the front and rear keep you visible in pre-dawn/post-sunset adventures. The Distance Run Short comes with an updated interior brief and is available in a 4" inseam.

- Featuring PFC-free DWR finish
- DWR finish on shell fabric
- Three utility pockets to carry on-trail essentials
- Updated integrated quick drying interior brief
- Elastic waist with drawcord
- 4" inseam
- 96g

## Rise Tights

## Black Diamond

The ultimate comfy gym bottoms, the Rise Tight blends lightweight performance with features for purpose-built for climbing.

- Primary fabric is Bluesign® approved
- Fabric provides durability and fast dry performance
- High waist for harness compatibility
- Fit: Slim
- Inseam: 25-inch

**UPDATED**

## Alpenglowl Hoody

## Black Diamond

For long, exposed movements and summit naps, the Black Diamond Alpenglowl Hoody keeps you covered when sunscreen just won't cut it. With UPF-50+ and BD.cool mineral based in-fiber cooling technology, which reflects 71% of near-infrared rays and reduces wearer's perceived temperature. A layer of protection to your arsenal, with an under-the-helmet hood and pullover design, plus Polygiene odor control, the Alpenglowl hoody offers the ultimate in performance and long-wearing comfort.

- UPF 50+ sun protection
- Credit card hip pocket
- BD.cool in-fabric cooling technology
- Underarm gussets for added range of motion
- Under-the-helmet hood
- Polygiene Odor Control Treatment
- 245g

## UPDATED

**Alpine Start Hoody**

An ultralight softshell designed to shield weightconscious climbers from ridgeline gusts and light weather, the Black Diamond Alpine Start Hoody features Schoeller stretchwoven fabric to provide highly breathable and highly packable weather resistance. An updated, women's specific silhouette provides an increased range of motion and unrestricted movement, so that you can keep climbing even in windy and cold conditions. Elastic banding on hood, cuffs, and hem seals in warmth and secures fit, while a drop hem is harness-compatible.

## NEW

**Fineline Stretch Shell**

Alpine squalls or urban downpours, the Fineline Stretch Rain Shell can handle it all. Featuring our BD.dry™ waterproof/breathable/windproof solution, which is engineered to shield you from whatever the weather holds, the Fineline is a fully featured rain shell. With DWR sealed pit zip vents, two zippered hand pockets and a waterproof center front zipper, the Fineline comes prepared for the wettest conditions but quickly adapts for moderate weather. The Fineline's underarm gussets and ultrastretchy fabric add mobility and durability, while the hood makes it perfect for on-trail escapades when inclement weather rolls in. The Fineline also has an adjustable hem and cuffs for dialing in the fit, and when the sun comes out, the shell stows into the right-hand pocket.

- Built with BD.dry™ 2.5L—our engineered waterproof/breathable/windproof technology
- 10,000mm waterproof rating
- 10,000 g/m2/24hr breathability rating
- Stretch fabric increases comfort
- DWR armpit zips for ventilation
- Underarm gussets for added mobility
- Adjustable, climbing-helmet-compatible hood
- YKK Aquaguard center front zipper
- Packs into right-hand pocket with carabiner clip loop
- Adjustable cuffs and hem

- Securely integrates with trail running shoes
- Construction optimized for breathability and protection

**NEW****PFC-Free**

## LightWeight ScreenTap Liners **Black Diamond**

Light, stretchy gloves with the added benefit of full touchscreen functionality, the Black Diamond LightWeight ScreenTap Liners are ideal for layering under your ski gloves, trail running or hiking with your smartphone. We started with a lightweight fleece, then covered the entire palm with U|R Powered conductive material to allow for gloves-on touchscreen use.

- 220g stretch fleece (92% recycled polyester, 8% elastane)
- U|R Powered® treatment on palm
- for gloves-on touchscreen use
- Temperature range: 0/7 °C (30/45 °F)

**NEW****PFC-Free**

## MidWeight ScreenTap Liners **Black Diamond**

Warm, stretchy gloves with the added benefit of full touchscreen functionality, the Black Diamond MidWeight ScreenTap Liners are ideal for uphill skiing, trail running or hiking with your smartphone. We started with 93% Recycled Polyester, 7% Elastane stretchy fleece, then covered the entire palm with U|R Powered conductive material to allow for gloves-on touchscreen use.

- 265 g stretch fleece (93% Recycled Polyester, 7% Elastane)
- U|R Powered® treatment on palm
- palm for gloves-on touchscreen use
- Temperature range: 0/7 °C (30/45 °F)

**PFC-Free**

## Mont Blanc Gloves **Black Diamond**

A grippy, stretchy and weather-resistant glove ideal for mountain racing, ultra-running and other high-output pursuits, the Mont Blanc offers the protection you need without slowing you down.

- Weather-resistant stretch shell
- Breathable stretch palm with patterned silicone grip
- Digital fingertips for gloves-on touchscreen functionality
- Low-profile stretch cuff
- Temperature range: 0/7 °C (30/45 °F)

**NEW****PFC-Free**

## Deploy Gloves

The Deploy is a lightweight, breathable base-layer glove with a slim fit that's designed for running and hiking. Made with soft, wicking fabric and a grid fleece nosewipe on the back of thumb. All gloves in the Distance series feature a comfortable cuff with a wristwatch opening and are touchscreen compatible.

- Soft, lightweight, wicking fleece fabric (88% Recycled Polyester, 12% Spandex)
- Touchscreen compatible thumb and index finger
- Wristwatch opening
- Soft grid fleece nosewipe
- Mapped silicone palm for grip and durability
- Reflective logo treatments for increased visibility
- Pairing clip
- Temperature range: 0/7 °C (30/45 °F)

**Black Diamond****NEW****PFC-Free**

## Deploy Wind Hood Gloves

With all the same features as the Deploy Gloves, this style adds an easy-to-deploy, stowable wind hood for when the temps drop. The Deploy Wind Hood Gloves are made for year-round training, made from a breathable, lightweight, wicking fleece with an ultralight, wind-and water-resistant stowable hood. This style is also wristwatch and touchscreen compatible.

- Soft, lightweight, wicking fleece fabric (88% Recycled Polyester, 12% Spandex)
- Stowable wind-resistant DWR hood
- Touchscreen compatible thumb and index finger
- Wristwatch opening
- Nosewipe grid fleece
- Mapped silicone palm for grip and durability
- Reflective logo treatments for increased visibility
- Pairing clip
- Temperature range: 0/7 °C (30/45 °F)

# HYDRATION

## 500ml Soft Flask

## Black Diamond

The 500mL soft flask—made by Hydrapak—is ready for your next adventure. Designed for our Distance Packs, our 2-D pinch weld construction includes a soft, oval shaped shoulder for minimal bulk while being worn, and will meet your hydration needs without weighing you down.

- Pinch weld construction with U-shaped weld
- Wide oval shoulder
- 42mm MX (non-locking) nozzle
- Material: Thermoplastic Polyurethane; HDPE

## Soft Flasks

## JR Gear

The JR Gear soft flasks use food grade TPU for safety and durability. They feature a bite valve for easy drinking and a screw top opening for easy filling and cleaning.

- TPU
- Bite valve

Available in 300ml and 500ml

## Hydrant 2l Bladder

## Vango

The perfect accessory for those on the go, providing easy access to water with no chance of leaks thanks to the secure locking closure and extremely durable BPA free material. Holding up to 2L of water, the Hydrant Pack will keep you fully refreshed when you're out enjoying the great outdoors.

- Holds up to 2L
- Easy Access Opening with Sealable Closure – Easy to clean and locks securely
- TPU Material – Strong and durable
- BPA Free
- Removable Hose – Makes refilling the bag easy
- Weight : 0.14Kg

### Microlite 500 Flip

### GSI Outdoors

Holding about 500ml, and engineered to keep it hot for a whopping 10 hours or cold for 20, the streamlined, durable Microlite 500 insulated bottle is perfect for hydrating on your commute, at the campground, and anywhere you travel. Stainless steel makes it rugged and pure, and the insanely thin 2mm walls keep the profile trim enough for cupholders and other tight spaces. Lock the cap tight for travel, then push a button and it flips up for easy drinking.

- Volume: 500ml
- Microlite Vacuum Technology – outstanding performance that's 1/3rd lighter than traditional designs.
- 10-hour heat and 20-hour cold retention.
- 18/8 stainless steel
- GSI engineered 2mm walls minimize the footprint without sacrificing durability or performance.
- Push-button, flip top cap

### Microlite 720 Flip

### GSI Outdoors

Leveraging the purity and durability of stainless steel, this Microlite insulated bottle holds 720ml of coffee, tea, water, or whatever, and keeps hot stuff hot for 12 hours, cold stuff cold for 24. The insanely thin 2mm walls keep the profile trim enough for cupholders and other tight spaces, and the innovative cap locks tight for travel, then – with the push of a button – flips open for easy drinking.

- Volume: 720ml
- Microlite Vacuum Technology – outstanding performance that's 1/3rd lighter than traditional designs.
- 12-hour heat and 24-hour cold retention.
- 18/8 stainless steel
- GSI engineered 2mm walls minimize the footprint without sacrificing durability or performance.
- Push-button, flip top cap

# SAFETY ACCESSORIES

## Light & Dry Nano First Aid Kit

## Lifesystems

Light. Waterproof. Quick. The Light and Dry Nano first aid kit combines super-lightweight fabrics with space saving design. The items are stored in a waterproof inner bag, keeping everything dry whilst remaining easy to find and access. Perfect for those events where every second counts. The Nano is designed with racing events in mind, allowing you to treat common minor racing ailments on the go.

- Contents:
  - Primary Care Leaflet
  - 6 x Safety Pins
  - 1 x Lifesystems LokTop
  - Waterproof Bag
  - 1 x Sun Cream Sachet
  - 1 x envelope of 5 Sterile Non-Woven Gauze Swabs (7.5cm x 7.5cm)
  - 2 x Alcohol-free cleansing wipes
  - 1 x Zinc Oxide Tape (25mm x 5m)
  - 1 x Sterile Adherent Dressing (15cm x 9cm)
  - 1 x Pack of Assorted Plasters
  - 1 x Elasticated Adhesive Bandage (75mm x 4.5m)
- 1 Person
- Dimensions (packed): 120 x 120 x 35mm
- Weight: 95g

## Light & Dry Micro First Aid Kit

## Lifesystems

The Light and Dry Micro first aid kit is a slightly more comprehensive kit than the Nano, but still designed for racing events when you need your kit to be super light. The Micro sits in the middle ground between the Nano and the Pro first aid kits in the Light and Dry range, offering more dressings, painkilling medication and water purification than the Nano, but still weighing in at only 135g.

- Contents:
  - 1 x Primary Care Leaflet
  - 6 x Safety Pins
  - 1 x Lifesystems LokTop
  - Waterproof Bag
  - 1 x Elasticated Adhesive Bandage 75mm x 4.5m
  - 1 x Sun cream sachet
  - 1 x Micropor Tape 12mm x 3m
  - 1 x Zinc Oxide Tape 25mm x 5m
  - 4 x Alcohol-free Cleansing Wipes
  - 1 x Sterile Adherent Dressing 150mm x 90mm
  - 2 x envelope of 5 Sterile Non-Woven Gauze Swabs (7.5cm x 7.5cm)
  - 1 x Pack Assorted Plasters
  - 5 x Wound Closure Strips
- Dimensions (packed): 150 x 120 x 45mm
- Weight: 135g

**NEW**

## Mountain Whistle

**Lifesystems**

A whistle is recommended as an essential item for people in the outdoors. The Mountain Whistle is a tough, lightweight aluminium alloy whistle.

- 108dB loudness
- High pitch single tone
- Anodised alloy body
- Key-ring attachment

## Echo Whistle

**Lifesystems**

With a compact and ergonomic design, the Echo Whistle creates a high pitch single tone that will be heard over long distances.

- 108dB loudness
- High pitch single tone
- Floats on water
- Key ring and attachment clip

## Hurricane Whistle

**Lifesystems**

One of the loudest whistles available, the Hurricane performs in all weather conditions even when it gets extremely wet. When blown the chamber design ejects water and creates a unique tri-tone sound which can be heard in all directions and further away than other whistles.

- 122dB loudness
- Tri-tone sound
- Floats on water
- Neck lanyard and attachment clip

## Light Sticks

**Lifesystems**

These Light Sticks are primarily designed as emergency signalling devices. To activate just bend, snap and shake thoroughly. Full glow will just take a few seconds. Comes in packs of two.

- 2 x 15 hour glow duration (green/orange)
- 2 x 8 hour glow duration (white)
- Light Sticks come in foil pack
- Lanyard included w/ each stick
- Safe: non-toxic; non-flammable
- Durable Polypropylene material
- Size: 18 x 16 x 165mm (each)

## Glow Markers

**Lifesystems**

Attach to anything you wish to locate easily in the dark. Containing photo-luminescent crystals, these markers absorb light and emit a luminous glow in the dark. Expose the marker to sunlight or any artificial light for 5 minutes and the marker will emit a glow for up to 12 hours.

- Comes w/ cable-ring attachment
- One 5 minute charge creates a glow for over 12 hours
- Has a rechargeable life of up to 10 years
- Size: 14 x 6 x 50mm (each)

# DRY BAGS

## Light Weight Dry Bag

**JR Gear**

Designed for budget conscious outdoor enthusiast. Fabricated with light weight fabric. Welded seam construction with an IPX4 Rating that protects your gear from water splashing and keeps your gear dry.

- Made from 75D Diamond Ripstop Polyester backed with TPU backing
- Welded seam construction for maximum waterproofing
- IPX4
- Available in:
  - 2.5L (Apple Green)
  - 5L (Red)
  - 15L (Blue)
  - 20L (Orange)
  - 30L (Black)

## Compression Bags

**JR Gear**

Pocket style dry sacks with roll-top construction. Fabricated with 75D Poly TPU and fully welded seam construction. Compression valve for compact storage.

- Compression screw valve which allows you to compress gear using an air release valve
- IPX4 Rating which protects gear from water splashing against the closure of the bag from any direction
- Made from 75D Diamond Ripstop Polyester backed with TPU
- This solidly constructed dry bag with welded seams and an overlap flap over the mouth is popular with adventure racers, kayakers and other water-sports enthusiasts and is a great for space-saving.
- Available in:
  - 5L
  - 15L
  - 25L

## Accessory Pouches

**JR Gear**

A rugged, IPX8 rated pouch designed to hold all kinds of small accessories.

- IPX8 Rating
- Rugged enough to prevent puncture from your keys or other sharp objects
- Detachable strap included
- Available in:
  - Small: 18 x 10.5cm
  - Medium: 20.5 x 13cm
  - Large: 23 x 15cm

# SLEEP & SHELTER

## Distance Tent (w/Adapter)

## Black Diamond

Built for ultralight mountain adventures, the Distance Tent pairs with any set of adjustable length trekking poles\* with the included adapter to create the ultimate, fast-pitch shelter on the go.

- Compact two-person tent
- Integrates with trekking poles for fast and easy set-up
- Vents at peak and foot allow for cross ventilation
- Tension-adjustable stake-out points
- Headlamp pocket in peak for easy illumination
- High tenacity 30D poly fabric
- Improves strength and doesn't stretch when wet
- Stronger reflective guylines - Polyester sheath with Dyneema core to minimize stretch
- Complies to FR regulation CPAI-84
- \*Black Diamond trekking poles sold separately

**NEW**
